| Alegría Royo Beltrán .....                   | Universitat de València.               | Espanha .....     | Doctora en Filología ...                                                       | 30-6-1994  | India song: Recurrencia e intercambios semánticos en la escritura durasiana. La estructura bipolar como processo de construcción fílmica.                                                                                    | 17-9-2004          |
| Alexandre Miguel Fernandes Gomes da Silva.   | The University of Reading.             | Reino Unido ..... | Doctor of Philosophy ...                                                       | 11-12-2004 | Methods for the analysis of multivariate lifetime data with frailty.                                                                                                                                                         | 18-1-2005          |
| Alice Lucas Semedo .....                     | University of Leicester                | Reino Unido ..... | Doctor of Philosophy ...                                                       | 5-2-2004   | The professional museumscape: Portuguese poetics and politics.                                                                                                                                                               | 20-2-2004          |
| Altino João Rocha .....                      | Massachusetts Institute of Technology. | EUA .....         | Doctor of Philosophy ...                                                       | 18-2-2004  | Architecture theory 1960-1980. Emergence of a computational perspective.                                                                                                                                                     | 28-7-2004          |
| Ana Cristina Ferreira Castela Paixão Casaca. | University of Wales ...                | Reino Unido ..... | Doctor of Philosophy ...                                                       | 28-7-2003  | The competitiveness of short sea shipping in multimodal logistics supply-chains.                                                                                                                                             | 4-8-2004           |
| Ana Isabel de Almeida Costa .....            | Wageningen University.                 | Holanda .....     | Doctor (PhD) in Nutrition, Food Technology and Biotechnology.                  | 2-5-2003   | New insights into consumer-oriented food product design                                                                                                                                                                      | 7-9-2004           |
| Ana Isabel Martins .....                     | University of London                   | Reino Unido ..... | Doctor of Philosophy ...                                                       | 31-10-2004 | The archives of the portuguese government during the residency of the court in Brazil, 1808-1821.                                                                                                                            | 17-12-2004         |
| Ana Luisa Balmori Padesca .....              | Universidad de Extremadura.            | Espanha .....     | Doctora en Derecho ...                                                         | 26-1-2001  | Multipropiedad, time-sharing y habitación periódica en la Unión Europea, Suiza, Turquía, Estados Unidos de América y Argentina.                                                                                              | 28-7-2004          |
| Ângelo Miguel Quaresma Gomes Martingo        | The University of Sheffield.           | Reino Unido ..... | Doctor of Philosophy ...                                                       | 31-3-2004  | Music as postmodern thought: A critical examination of George Crumb's makrokosmos I.                                                                                                                                         | 16-12-2004         |
| António José dos Santos Silva .....          | Ruhr-Universität Bochum.               | Alemanha .....    | Doktor der Naturwissenschaften .....                                           | 5-11-2004  | Form factors of the baryon octet in the chiral quark-soliton model.                                                                                                                                                          | 9-12-2004          |
| Augusto Luís de Brito Henriques Pinheiro     | Université Aix-Marseille I.            | França .....      | Docteur de Psychologie                                                         | 15-12-2003 | L'enseignant — Étudiant et l'enseignant — en service. Étude longitudinale de l'évolution des représentations sur l'enfance, le développement et les orientations éducatives.                                                 | 8-1-2004           |
| Carla Amado .....                            | University of Warwick                  | Reino Unido ..... | Doctor of Philosophy in Industrial and Business Studies.                       | 28-1-2004  | Exploring the use of data envelopment analysis for evaluation in primary care.                                                                                                                                               | 22-4-2004          |
| Carlos Alberto Antunes Viegas .....          | Universidad Complutense de Madrid.     | Espanha .....     | Doctor .....                                                                   | 30-5-2004  | Estudio comparativo de regeneración periodontal mediante fotobiomodulación con «soft laser» y aplicación de plasma rico en plaquetas. Estudio experimental en perros beagles ( <i>Canis familiaris</i> dom: Linnaeus, 1758). | 20-5-2004          |
| Carlos Antunes .....                         | Technische Universität Graz.           | Áustria .....     | Doktor der Technischen Wissenschaften.                                         | 17-11-2004 | Geoid determination by gravity space approach.                                                                                                                                                                               | 20-12-2004         |
| Cármén Isabel de Oliveira Amado Mendes       | University of London                   | Reino Unido ..... | Doctor of Philosophy ...                                                       | 31-5-2004  | Portugal and the settlement of the Macau question, 1984-1999; Pragmatism in international negotiations.                                                                                                                      | 9-7-2004           |
| Catarina Sofia da Costa Nunes .....          | The University of Sheffield.           | Reino Unido ..... | Doctor of Philosophy ...                                                       | 16-1-2003  | Advanced signal processing and control in anaesthesia                                                                                                                                                                        | 27-10-2004         |
| Cristina Coelho .....                        | Université Toulouse III.               | França .....      | Doctorat en Odontologie.                                                       | 1-7-2002   | <i>Actinobacillus actinomycetemcomitans</i> et <i>capnocytophaga</i> SPP. dans le système écologique buccal chez des individus sains et des patients porteurs de parodontite.                                                | 5-12-2002          |
| Elga Cristina Vilela Viana Pereira da Costa  | University of Glasgow                  | Reino Unido ..... | Philosophiae Doctorem.                                                         | 4-12-2003  | Chuva braba. O testemunho claridoso de Manuel Lopes                                                                                                                                                                          | 8-1-2004           |
| Emanuel Cláudio Leão .....                   | University of York ...                 | Reino Unido ..... | Doctor of Philosophy ...                                                       | 14-7-2000  | A study of inside money in a dynamic general equilibrium framework.                                                                                                                                                          | 11-5-2000          |
| Faustino Augusto Manuel Rodrigues .....      | Università Degli Studi Milano.         | Itália .....      | Dottore di Ricerca in Patologia Comparata Degli Animali Domestici e Selvatici. | 21-5-1999  | Studio morfopatologico ed immunoistochimico dei tumori mammari spontanei nei carnivori.                                                                                                                                      | 19-10-2004         |
